INDUSTRIES

Manufacturer of :  
Hard Chrome Plated Rod | Hydraulic Cylinder | Hydraulic Power Pack  
Hydraulic Clay Bricks Machine | Hydraulic Press Machine

## Profile

Established in the year 2007, at Ghaziabad (Uttar Pradesh, India), we, "Radhey Krishan Industries", are engaged in manufacturing, exporting and supplying a comprehensive assortment of Hydraulic Equipment. The offered range includes Cut of length machines, Hard chrome plated rods, hydraulic cylinders, power packs, material handling Equipment, Hydraulic Presses, Hydraulic Bending Machines, etc. These are Manufactured using the best grade raw material and sophisticated technology in accordance with the set industry standards. Our offered products have huge demand in the national as well as international market owing to their durability, robustness, corrosion & temperature resistance, low maintenance and optimum finish. Apart from this, these are available in varied dimensions, sizes and thicknesses as per the variegated needs of clients. In addition to this, clients can avail the offered products from us at the most reasonable price range.

We have established wide infrastructural facility that is installed with modern machines, tools and equipment. Our hi-tech infrastructural unit is further segregated into different divisions like manufacturing, quality testing, sales and marketing, etc. Also, our manufacturing unit helps us in meeting the bulk and urgent requirements of our valuable clients within the predetermined time frame. The improvisation of these divisions and machines are carried out at regular intervals to ensure high production rate. Backed by the team of highly experienced professionals, we are responsible for providing clients the finest quality products. They work in close-coordination with each other as well as with the clients to provide them with the best products. Apart from this, they completely understand the varied requirements of clients and thus provide uncompromising quality products with variety.

## PRODUCT DESCRIPTION

### ■ **Hard Chrome Plated Rod**

Owing to our expertise, we are manufacturing, exporting and supplying an extensive array of Hard Chrome Plated Rod. Designed with utmost precision utilizing the finest quality raw material under the supervision of experienced engineers, our offered rods are in compliance with the international quality standards. Sturdy construction, light weight, high tensile strength, dimensional accuracy and durability are some quality attributes that make our offered rods highly demanded in the market.

**Technical Specification :** Material en-8D **Tolerance :** /8

**Surface Finish :** 0.2  $\mu$ m Ra **Range :** up to 12000 mm length

**Dia :** 10mm to 750 mm

### ■ **Hydraulic Cylinder**

We offer a wide range of hydraulic cylinders that are precision engineered using premium grade raw material. Meticulously designed, these hydraulic cylinders are best suited for heavy duty material handling equipment. Compliant to relevant standards, our range is available in varied specifications to suit diverse needs of clients.

**Range Stock :** upto 11700 mm **Bore :** 1000mm

### ■ **Hydraulic Power Pack**

The Power Pack offered by us are widely used in filter and hydraulic presses. Easy to install, operate and maintain, these assures high performance, durability and reliability. Designed to perfection, these are precision engineered, dimensionally accurate and highly efficient. The power packs are safe in operation and is rust, corrosion and abrasion resistant and can withstand high pressure. Our power pack comprises of standard pumps, valves and accessories. Well designed for power saving the pressure is up to 500 Kg/cm<sup>2</sup>

### ■ Material Handling Equipment

We manufacture highly durable material handling systems like heavy material handling systems and industrial material handling systems. These are processes by using good quality raw material to ensure their high standard durability and sturdiness. Our range of the material handling equipments

### ■ Hydraulic Press

The C Frame Hydraulic Press offered by us are specially designed with low noise level and precise ram guides. These are durable, reliable, rust and corrosion resistant and have least possibility of leakage. Its capacity is up to 300 tons and it features lubrication free polymer bearings, die cushion, induction table and rubber molding with pressure transmitter for precise pressure sensing. It finds usage in powder compacting, valve pressure testing, rubber molding, plywood and lamination and in metal forming and deep drawing.

### ■ Hydraulic Bending Machine

Catering to the requirements of various industrial applications, we have been manufacturing a wide range of Hydraulic Press Brake Machine. These are precisely engineered and are known for offering optimum performance even in rugged conditions. We are well reckoned as the most preeminent horizontal hydraulic press brake manufacturer, based in India. It is widely used in various industries for several applications as hydraulic press brake machine provides maximum output.

### ■ Cut to length Machine

We are one of the leading manufacturers, exporters and suppliers of superior quality Cut to length machines. Assembled by our experienced engineers, these machines are widely used in diversified industries for various applications. Further, we assure that we use only quality tested components in manufacturing process. Our offered machines are well-known in the market due to their high efficiency, accuracy, corrosion resistance and robust construction and longer & hassle free service life

### ■ Hydraulic Shearing Machine

We are offering range of highly efficacious hydraulic shearing machine. We are counted among the supreme industrial shearing machine manufacturers & suppliers, based in india. Hydraulic shearing machine provided by us is manufactured from the optimum quality raw materials using high technology machines. We are offering range of highly efficacious hydraulic shearing machine. We are counted among the supreme industrial shearing machine manufacturers & suppliers, based in india.

### ■ Hydraulic Clay Bricks Machine

We provide technically advanced Clay Bricks Making Machines in industry-specific shapes and sizes. Our clay brick making machine leverage high performance resulting in smooth construction of the material. We offer clay brick making machine at the most discounted price in the industry

We are one of the renowned Manufacturers, Exporters and Suppliers of a wide assortment of Hydraulic Equipment. The offered products are highly appreciated among clients for their robust construction, longer service life and minimum maintenance.

**HYDRAULIC SHEARING MACHINES**

**INDUSTRIAL CUT TO LENGTH MACHINE**

**HYDRAULIC BENDING MACHINE**

**HYDRAULIC LIFT**

**RING ROLLING MACHINE**
